

# Big Oil is in Hog Heaven

**Last year, the world's top five oil companies made more than \$120 billion in profits.** Now they're trying to take advantage of

Americans' pain at the pump by grabbing even more of our precious places — knowing that it won't make a bit of difference to gas prices.

Even legendary oil man T. Boone Pickens acknowledges that “this is one emergency we can't drill our way out of.” Yet that's exactly what Big Oil, and their cronies in Congress, are proposing.

Americans want freedom from Big Oil. Americans demand real solutions that will make a real difference in their lives, now and into the future. Americans deserve a clean, secure energy economy that will deliver good jobs, safeguard our planet, and forever break the chokehold that Big Oil holds on our wallets.
