

Green Jobs For Refuges

Creating Jobs in California by Investing in National Wildlife Refuges

The Cooperative Alliance For Refuge Enhancement (CARE)
and its combined 14 million members and supporters urge Congress to include
\$1 billion for nearly 20,000 new green jobs on national wildlife refuges
nationwide in the 2009 economic recovery package.

*A \$1 billion investment nationally would support over \$70 million in projects for California and
create more than 1,650 new jobs on 29 National Wildlife Refuges in the state.*

EXAMPLES INCLUDE:

DON EDWARDS SAN FRANCISCO BAY NWR:

- LEED Certified Visitor's Center and Administrative Center
- Restoration of the South Bay's Salt Ponds
- Renewable Energy Projects — installation of solar and geothermal power systems

SACRAMENTO NWR:

- LEED Certified Visitor's Center and Administrative Center
- Repair and rehabilitation roadway projects
- Restore agricultural lands for sandhill crane habitat

SAN DIEGO NWR:

- LEED Certified Visitor's Center and Administrative Center
- Control Invasive Plants along Sweetwater River
- Restore Salt Pond, SSD Bay, Phase I

SAN LUIS NWR:

- LEED Certified Visitor's Center and Administrative Center
- Renewable Energy Projects
- Replace Water Control Structures

Economic Value of Stimulus to Local California Communities

National Wildlife Refuges offer significant economic benefits by attracting 40 million visitors annually, who spend more than \$1.7 billion each year, resulting in employment for more than 27,000 Americans. Refuges are economic engines in local economies, returning at least \$4 of economic activity for every \$1 appropriated by Congress and in many cases the return is much, much higher.

An investment of \$70 million to build green facilities, install renewable energy technology, and restore thousands of acres of wildlife habitat leverages a much larger total economic return for citizens, communities, and the State. Based on estimates from the U.S. Fish and Wildlife Service, this investment will generate:

Total Economic Output: \$202 million
Local and State Revenue: \$10.2 million

About C.A.R.E.

The Cooperative Alliance for Refuge Enhancement is a diverse coalition of 22 conservation, recreation, sporting, and scientific organizations with more than 14 million members and supporters across the United States. CARE has been working since 1995 to help the National Wildlife Refuge System fight a serious funding crisis.
