

Green Jobs For Refuges

Creating Jobs in Hawaii by Investing in National Wildlife Refuges

The Cooperative Alliance For Refuge Enhancement (CARE) and its combined 14 million members and supporters urge Congress to include \$1 billion for nearly 20,000 new green jobs on national wildlife refuges nationwide in the 2009 economic recovery package.

A \$1 billion investment nationally would support over \$33 million in projects for Hawaii and create more than 794 new jobs on 12 National Wildlife Refuges in the state.

EXAMPLES INCLUDE:

HAKALAU FOREST NWR:

- Invasives Species Removal – Rats
- Volunteer Coordination for Habitat Restoration

■ Hakalau Forest NWR needs additional infrastructure to save many plant species previously thought extinct | NWRA

JAMES CAMPBELL NWR:

- LEED Certified Visitor's Center and Administrative Center
- Invasive Species Removal for endangered birds
- Renewable Energy projects

KEALIA POND NWR:

- LEED Certified Visitor's Center and Administrative Center
- Invasive Species Removal
- Renewable Energy projects

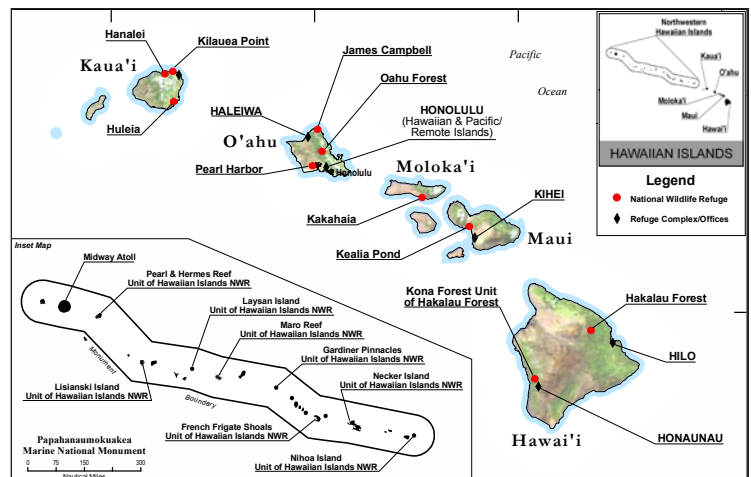

Economic Value of Stimulus to Local Hawaiian Communities

National Wildlife Refuges offer significant economic benefits by attracting 40 million visitors annually, who spend more than \$1.7 billion each year, resulting in employment for more than 27,000 Americans. Refuges are economic engines in local economies, returning at least \$4 of economic activity for every \$1 appropriated by Congress and in many cases the return is much, much higher.

An investment of \$33 million to build green facilities, install renewable energy technology, and restore thousands of acres of wildlife habitat leverages a much larger total economic return for citizens, communities, and the State. Based on estimates from the U.S. Fish and Wildlife Service, this investment will generate:

Total Economic Output: \$97.5 million
Local and State revenue: \$49.1 million

About C.A.R.E.

The Cooperative Alliance for Refuge Enhancement is a diverse coalition of 22 conservation, recreation, sporting, and scientific organizations with more than 14 million members and supporters across the United States. CARE has been working since 1995 to help the National Wildlife Refuge System fight a serious funding crisis.
