

Defenders of Wildlife

# Defenders of Wildlife Grizzly Compensation Trust

The Defenders of Wildlife Grizzly Compensation Trust is a model of the incentives that might be offered to private landholders for supporting threatened and endangered species. Through this program, Defenders pays full market value for livestock *verified* to be killed by a grizzly bear and 50% for livestock *probably* killed by a grizzly bear but not verified. The decision to pay for probable losses is made on a case-by-case basis by evaluating circumstantial evidence.

Total Payments from 1997 through December 2013: \$409,617

## COMPENSATION TOTALS BY YEAR

2013	\$30,785
2012	\$89,205
2011	\$46,090
2010	\$43,940
